#### THE CITY.

#### Gas-Leak.

There is a gas-leak at the foot of Fifth street, near the river, which creates a very obnoxious stench. It ought to be fixed.

#### Counsellor Baird.

Private advices from Washington repre sent that Robert F. Baird, Esq., will certainly receive the appointment of Consul to Shanghae, China.

#### At the Jail.

The names of Martin Mack and Wm. Porter were registered at the jail late last evening, both under the head of drunk and disorderly. Judge Craig will decide their indebtedness to the city this morning.

#### Orders for the Express.

Persons wishing the Evening Express will apply to the carriers or send their orders to our counting-room, No. 112 Jefferson street. Our paper is supplied to subscribers (Monday morning edition inclu-· ded) for the low price of 15 CENTS PER WEEK, OR 75 CENTS PER MONTH.

### Enterprise.

Two of the most industrious and successful newsboys in Louisville have only two legs between them. We have another newsboy with only one arm, another with one eye, and altogether they are the smartest newsboys in the country. This the age of progress, and these boys represent Young America.

#### To Be Hung.

John Conley, under sentence of death for the murder of Henry Pope, will be executed in this city, on Friday next, "be tween surcrise and sunset of said day," as the sentence directs. The Sheriff has no yet decided the locality for the execution We understand the Helm Guards will do guard duty on the occasion.

## A Present for Mayor Tomppert.

It is understood that Mayor Tompper will be the recipient of a handsome pres ent on his vacating his place to-day, as a testimonial of the respect and esteem of a number of friends who have maintained official relations with him. The gift will he honorable alike to him and to those who make it

### A Crowded Street.

If the lovely weather of the past few days shall continue, either Fourth stree sidewalks must be enlarged or the ladies must vie their beauty and dress in less attractive apparel-for between the fair sex who inhabit that great thoroughfare and the gents who rush thither to admire them, it presents pretty much of a jam through-

## The Mendelssohn Club.

In December and March this celebrated musical society presented to their friends the first part of the great oratorio of Elijah. To-morrow evening the second and last part of the oratorio will be given It will be the first complete rendition of it ever accomplished in this city. The directors of the society deserve credit for their perseverance.

## The Burglars Quiet.

The enterprising batch of rascals that have been plandering our citizens for months past are again quiet. But whether they have left for good, or this is a pru dential measure and temporary, only to sally out again when the police are not on the alert, is altogether conjecture. They are certainly mysterious fellows, and the sharpest of their kind.

## Railroad Rumor.

The Cincinnati papers assert that the Louisville and Cincinnati railroad will be partially under the control of the Pennsylvania Central. This is news here, as even the railroad fraternity profess entire ignorance on the subject. It is said, however, that the Pennsylvania road has given material aid to the above enterprisc.

## Enjoying his Freedom.

Dan Jackson, in. e., was enjoying hi freedom and a Sunday drank, and kicking up a general rumpus, at the corner of Jefferson and Second streets, yesterday. when he attracted the attention of Office Fritch, who kindly took pity upon his embarrassment and hid him from the unfeeling gaze of the world in the dark recessor of the First-street station.

## The Beer Gardens.

Woodland was crowded with visitors yes terday-an enormous amount of beer wa bsorbed, and everybody there seemed to be happy; but, as far as leard from, the beer drank was not of a fighting character. and the day's sport passed off serenely without a row or unpleasantness of any

kind. Lion Garden was also well filled with pleasure-seekers, music was abundant, and the crowd enjoyed themselves well enough without a single fight.

## The Opera House.

The funny Leftingwell commences an engagement at the Opera House to-night. and will "gush" in the role of "Gushing Clorinda," in Byron's burlesque of "Cin derella." He is called "the Leffingwell' because, in all the land there is but one Leffingwell, or rather, one who possesses such an all-powerful gift of intermingling the broadest farce with the most exquisite touches of sublime tragedy.

By the way, Leffingwell made his first appearance as an actor in the present Opera House about twenty-two years ago He had been a printer in the Courier office, and aspiring to histrionic honors, left the types and took to the buskin. He knew his own rare powers. The stage was his forte, and, in his line, he has no rival on

#### Cutting Affray.

At a late hour last night the night-hell at the drug store on the corner of Third and Green streets was pulled violently, which aroused the clerk sleeping within. On going to the door to see what was wanted, he saw a party of negroes, one of whom was badly wounded and bleeding profusely. He sent them to Dr. Kelley, whose office is in the second story of the ame building, for relief.

While the Doctor was dressing him, the sounded negro related his story in regard to the manner in which he received his innries. He had been in a house of ill-fame on Marshall street, where he had got into a dispute for the possession of one of the female inmates, during which his autagonist stabbed him in the arm with a long knife. The wound was near the shoulder, in the right nrm, between the brachial arfor the unfortunate darkey; when he was taken home by his friends. His injuries, though dangerous, will not be apt to result

## Farewell Sermon.

Rev. J. H. Lynn, for some time pastor of Broadway M. E. Church, delivered his farewell sermon at this place of worship esterday morning.

In the evening the congregation of the Chestnut-street M. E. Church met with place, for the purpose of a final parting with their beloved pastor. The holy rite of sacrament was administered by Rev. Lynn and other divines. The ceremonies were beautiful and affecting.

Rev. Lynn has been an active laborer n his holy calling for many years in our city, and leaves behind lim an almost inumerable host of warm friends. He has een transferred to a charge in Baltimore, for which city he takes his leave to-day.

## Dead Child Found.

Early this morning a dead infant child vas found in the alley in the rear of the ustomhouse between Green and Wulnut. It was apparently about six months old, bore no traces of bruises or violence, and had evidently been left there by an unnatural and heartless mother to die, in order to hide her shaine from the world. Coroner Moore was called, who held an inquest upon the little body, with the following rdiet by the jury:

VERIGET, No. 270-Held on Third street. ween Green and Walnut, April 26th, 869, upon the body of an unknown infant. Verdict—Premature birth, and its parents are unknown to the jury.

#### DICK MOONE, Coroner J. C. Charter Convention.

The meeting for the final examination nd adoption of the new city charter by the Charter Convention takes place tonight, at eight o'clock.

One feature of the meeting will be the stablishment of a city board of manufac tures, with a capital of ten million dollars. Had Louisville, ten years ago, organized such an institution, and thereby developed her great and unequaled advanages for manufacturing purposes, her population would now be far greater than it is. Let the board be established by all means. Better late than never.

## Death of Robert Johnson.

The telegraph brings advices of the sudden death of Robert Johnson, the eldest on of Ex-President Johnson, at Greeneville, Tenn. He was a young man of de eided intellect, but erratie; and the gifts which nature had lavishly bestowed on him, were all thrown away. Yet his gencrous heart won him friends, who will remember him with kindly feelings. The grave covers all his faults.

### The Susan Taylor Affair.

In company with Coroner Dick Moore and his jury, we yesterday paid a visit to the residence of Susan Taylor, the colored woman who had a difficulty with one Lou Johnson, another colored woman, on Jef ferson street last week, and the particulars of which have been heretofore nar rated in this paper.

The house is a dilapidated frame building on the corner of York and Eighth streets. The moment we entered the door our nasal organ took in a stench almost ekening. The negro woman was stretch d on the hard floor, with a very filthy arny blanket for a covering, and seemed to e enduring the greatest pain and suffer ing, both mental and physical.

Her evidence before the jury was only by us, and showed her husband, who has paid but one visit to her since her illness, and spent but twenty-five cents for her relief, to be as black and villainous in his heart as his charcoal complexion.

Several black witnesses were examined, the testimony of whom was for the most part in harmony with that of the patient. Col. Moore last evening sent Drs. Kastenbine and Cox to give medical relief and aid to the unfortunate woman, paying for the same out of his own private purse, that of the Broadway church in the latter which is highly praiseworthy, to say the least, on his part.

The following is the verdict of the jury inpanueled to investigate the matter: INQUESTS Nos. 267 AND 268-Held at the orner of Eighth and York streets, in th ity of Louisville, April 22d, 1869, upon he bodies of twin infants, the offspring of Susan Taylor (colored). ## MORMONIC.

#### The Order of Enoch. From the Cleveland Herald.

Mormonism is about to take another tep. At the Fortieth Annual Conference Latter Day Saints, lately held at Salt Lake City, Elder Cannon announced that the Mormons were about entering upon a revolution. A revelation was given to Joseph Smith which inculcated the "Order of Enoch." This order was founded upon principles which the people of Enoch practiced. When the Order of Enoch was revealed to Joseph Smith, the people were not prepared to receive its principles, and ence those principles, though old us eternity, are new to this generation, but were revealed thirty-six years since, and have not been lost sight of, though they have

een a dead letter hitherto. The Mormons are now told that this Order of Enoch must be instituted, else ney cannot be permitted to go back to build up the center stake and accomplish the redemption of Zion. The object of the order is to counteract the growth of an ar-istocracy of wealth, by establishing a community of interest. The uttempt nade at Nanyoo, by a class called learans, to establish a system of communism but the Saints were driven from there and the attempt failed because it was the work of man. Now, however, the Lord lias taken the matter in hand, and has revealed that "unless we are equal in ten poral things we cannot be equal in spirit nal things;" which means that we shall have an equal claim upon the treasury of

Elder Benson also spoke upon the subet, declaring that the Mormons must now bey the Order of Enoch; that all the property the saints have is but loaned for he purpose of building up the kingdom and to gather in the poor. President Young was proclaimed as the greatest finanier in the world, and to that was due the present prosperity of the saints. The Mormons were instructed to obey Young, and to enter into co-operation or whateve

oung might direct. We could not gather from the speeches that Young was expected to divide, lort vidently the rule hereafter is to be that of a common stock. It is possible that certain of the Mormons, having become forehanded, are restive under restraint, and threatened, hence this new decree has been promulgated, by which Brigham Young ean hold the jourse-strings of the entire

Barbarities of the Spanish Soldiery. From the New York Sun, 23d.

We have received the following interesting letter from one of the victims of the Spanish tyranny and barbarity in Cuba. the filthy dangeons of Havana:

DEAREST FRIEND : From the same prison from which I wrote to you last, I now write to relate to you some of those melancholy seenes, scenes of grief and blood, which, unfortunately for civilization, have always marked the annals of Spanish rule in America.

THE EXECUTION OF MEDINA AND LEON.

To-day at 11 A. M. the Cuban patriots, con and Medina, were murdered on the vile garrote. This instrument consists of the framework of a gallows, but instead of life being taken by a rope around the neck, the victim is placed in a sitting posture and an iron ring attached to a post is adjusted around his neck. On the opposite side of the post is a lever, which the executioner turns in such a way that the ertebræ of the neek are broken, eansing leath. This is considered by the Spaniard he most ignominious of all modes of exeution, and hence only malefactors are executed in this way. Much more that he said was drowned by the beating of drams by the Spanish soldiery. There was, however, a pause of the drumming, and then were heard the words uttered by Leon as self, for I could not bear the thought of the ring was put around his neck. He repeated again and again, "Hurrah for Cespedes!" "Hurrah for Cuba!" In the In the multitude, which consisted mainly of Spaniards, there was about 2,000 or 3,000 Cubans, who, carried away by their en-thusiasm, took up his cry, "Hurrah for Cespedes!" ANOTHER SLAUGHTER BY THE SPANIARDS It is now past 8 o'clock, evening, and I ave just learned that twelve bodies have been found, mostly of colored persons, who were slaughtered by the Spanish vol unteers, principally belonging to the Fifth and Sixth regiments. The Spanish fiends enetrated the streets adjacent to the place of execution, firing indiscriminately ipon all who approached them. They so entered private residences on their bloody errand

Colonel W. C. Squires, one of the keenst-sighted officers of the army of the Cumberland, arrived from Havana on Friday, having spent three or four weeks in Cuba. He says that the government has fifteen thousand regulars and forty thousand volunteers. He saw one review of twelve or fourteen thousand volunteers, and dur ng his stay on the island he witnessed the arrival of eight or nine thousand volunteers, mainly from Catalonia, in Spain The Spaniards have five thousand body rifles and fifteen thousand Reming tons. ## ASTOUNDING DISCOVERY.

A Race of Sentient Beings Invisible to the Naked Eye discovered with the Microscope. From the Mobile Tribune, 18th.

We accepted an invitation yesterday to It is dated April 9, from his cell in one of examine the most wonderful and awful liseovery ever made by man, a comn ty of microscopie human beings!

The gentleman who made the discovery s a well-known eitizen of Mobile, whose name we are not at liberty to reveal, but whom for the sake of convenience we shall call Mr. A.

Mr. A. is a gentleman in easy circumstances, who has devoted much time to proportion that the sun surpasses the eientific pursuits, particularly to experinents with the microscope. It was while examining with this instrument a speci men of moss or lichen, taken from the roots of a live oak tree near the Spring Hill road, that Mr. A. made his astounding discovery. He saw clinging to the minute branches of the lichen that he had been turning about so unceremoniously, a human being, perfect in form, and with a countenance revealing the wildest terror. The microscopic man was magnified to the size of a small red ant, and when h first met the eye of Mr. A. it is doubtful which of the two were the more terrified, the experimenter at the unexpected dis covery, or his microscopic fellow-creature at finding himself subjected to such rough

treatment did not venture to use the microscope again. Was it really true that I had seen being laughed at about a matter that had cansed such sensations in my mind. At up: That the parties interested in the cansed such sensations in my mind. At up: That the parties interested in the last I determined to make further examimagined, and there lay the man that I had seen before, but living no longer. well as could be made out by the magnifying power of my microscope, the legs of the object of which is easily understood, the animalculæ were tied together as visi- oppose that po!icy; but whatever they ble boys tie squirrels and partridges. The microscopic man evidently wore clothes, but of what material or how formed it was

mpossible to determine.
Convinced beyond a doubt by what he ad seen, of the existence of a race of microscopie human beings, and somewhat familiarized with the idea that so revolted im at first, Mr. A. continued his researches with the greatest zeal. The examination of several more speci-

This he carefully removed with the undations on which it stood, and transerred it to a flower pot in his back yard. It was there that we had the pleasure of cholding the wonderful and minute crea-

The portion of the city so far examined ontains a population of probably three aillions, or a number about equal to that of London.

It is impossible with the microscope in Mr. A.'s possession to tell of what mater al the houses are built-whether they are fearth, or wood, or both combined. The streets appear under the micro cope to be about a quarter of an inch width, and thronged with people hurrying to and fro, whether in the pursuit of com-merce or on account of the late shocks

their city experienced during its transfer from the root of the tree to the flower-jot, mnot, of course, be ascertained. But they were-men and women magni fied to the size of pismires, and displaying all the signs of tumultuous human life! While we were watching the ever chang-

He was taken away by persons seeming to have authority. What the stolen property was that he held in his hand to the last, the microscope was not powerful enough to determine. During the pursuit of the theif the people showed every symptom of excitement common amor lapped their hands, thrust their neighbors ndely nside, and showed by their gestientions the deepest interest in what was oing on, and curiosity concerning it. Their shouts and screams on the occasion were doubtless deafening to one another, but of course they could not be heard by

Want of space compels us to bring this subject to a close for the present, although we have recorded but a small fraction of the interesting incidents that came under our own observation, and the more numerous ones that were observed from time to time by Mr. A. When the more powerful microscope ordered by that gentleman arrives, and the expected results are obained by observations with it, we shall ay the facts before our readers.

The extent of Mr. A.'s discovery may be summed up as follows: A race of sentient beings, invisible to the naked eye, in hape perfect men and women, apparently with all the passions, hopes and fears that sway the larger species. They are considerably advanced in civilization, for they dwell in deusely populated cities, a state of society in which the science of ontribute to the comforts and embellishments of life must necessarily have been hair.

Whether the existence of sentient beings n the microscopie world was ever before uspected we are not prepared to say, but had such a theory been advanced before the discovery we have recorded, it would not have been becoming in a philosopher to reject it without due consideration.

## The Belgian Railway Difficulty-

The Subject not yet Settled. Paris (April 5) correspondence Lond, Herald. M. Frere-Orban is reported by the semiofficial prints to be "perfectly satisfied" with the results of his visit to Paris and the several interviews he has had with the Emperor and his Ministers. The assertion, coming from such a quarter, is not worth much, and the fact remains that the Prime Minister of Belgium has had to come to Paris and do the amende honorable for daring to assert the right of Belgi-um to do as she likes with her own, and that he has to 'negotiate' about some thing. What that something is I can't say. It may be the transfer to France of a sentient being, where I expected to see an unlimited privilege to purchase such only the lower orders of unimal life; or had Belgian railways as she thinks fit, or it an unlimited privilege to purchase such I fallen a victim to my enthusiasm in the may be a customs union; or, again, it may he a mere renewal of the treaty of comheree now existing. The Island of Cuba. Less than four hundred years have winged their flight with the shadowy past, since the eye of civilized man first rested upou the fairest of islands in our tropical seas. When the great mariner of another hemisphere gazed for the first time upon friends as Joe Bunce, and few who deserve this Eden of the world, he beheld it fresh from the exhuberant haml of a na ture profligate of her rarest gifts of soil. and climate, and growth. " The armaments which thunderstrike the walls Of rock-built cities, bidding nations quake And monarchs trembie in their capitals."

There stood the orange, the lemon, the citron, and the lime, gladdening the eye with perennial foliage and loading the vo luptuous atmosphere with their sweet per fumes, and there was the cocoa and the banana with their sumptnous burden of wholesome fruit inviting our adventurou band to an abundant repast that nature had spread without the labor of man. The stately palm, the close-textured lance, the rich-hued mahogany, the lignum vita and the cedrela odorata stood there as nature had planted them, welcoming the skill of man to turn them into the multi plied uses of the arts and sciences. And in the deep shade that this magnificent forest east upon the grateful earth lurked the empire of man. The richest of soils the lovliest of seas and the most luxuriou of floras, all proclaimed this enchanted spot the Eden of the earth.

The people of the United States have never failed to fully appreciate the natural advantages of this proud Queen of the Antilles. We know that her thirty-three millions of exports have searcely a parallel in the opulence of nations; and wr further know that, with a government worthy of such a country, her rich soil, her mild elimate, and her valued products. she would still further startle the nations of the earth. Her sngar, her tobacco, her coffee, her cotton, her fruits, and her cereals are the marvel of agriculture and commerce. With an area of less than fifty thousand square miles, and not more than duct in shaking hands with a negro alele a twentieth of her rich soil in cultivation, she astonishes the world with the golden the little labor it takes to produce such

Salnave objects to it on the ground that he already has negroes enough. He thinks the negro diplomatists from this country should be selected from among the white people and white men sent to Hayti. The negro of Hayti is as much negro as the negro of Hayti wants. He is evidently ignorant of the fact that the white man who would necept the appointment is infinitely inferior to an intelligent negro in every respect.

Mr. Fessenben paid a handsome compliment to the South, last Wednesday, in the Senate, He said for fifty years the proportion of eivil officers of the government from the Southern States was as two to one from all others. If Grant intends to raise a fuss with Spain about the Cuban question, he ought to stop this cartridge business.

The friends of the venerable Saunel Keithley, of St. Charles county, Mo., cel-chrated his cightieth birthday anniversary a few days since. He was born in Kentucky in 1789, and emigrating to Missouri in 1808, settled in St. Charles, where he has lived for fifty-one years. He has one hundred and forty-four of whom are living.

WE have it from the Philadelphia Press that it is stated on reliable authority that the appointment of Sandford as Minister to Spain was accomplished as a preliminary step to the annexation of Cuba to the United States. It was supposed, we presume, that Spain would be very glad to give up Cuba in order to get shut of Sanford.

But it is notorious y the fact, that at no time since the inauguration of the present State Government, so obnoxions to every sense, feeling and interest of the whole mass of the inelligenee and worth of the white citizens of the State, has there been a period of general quiet equal to that which prevails at present. And, if violence and bloodned now again occur, we ask, in the name of all truth, at whose door will the respon

sibility rest? We ask this in all soberness and with no feeling bnt that of deprecation of difficulty in the future. If, then, we cannot see the necessity for this mustering of the militia, and the in-evitable irritation which must follow, what notive enn we discover, except it be a urpose to continue to violate and won he natural sensibilities of our people-t yrannize over them by the use of the rute force which the superior numbers he negro population affords-to crus hem down, in fact, with the heel of th negro? ## OUR LEXINGTONIANS,

An Ancient Quartette.

From the Paris True Kentuckian, At the late meeting of the State Medi-Society at Lexington, we noticed a quartette of ancient gentlemen seated to gether. They were the venerable George Robertson, 78 years of age; David Sayre, 75; Gen. Leslic Combs, 77; and Dr. Chinu, 79. late Mayor of Lexington, 72

Gen. Combs' history ns a young soldie of the war of 1812, and politician since, i. well known. He says he preserves his wonderfully youthful appearance by tem-perance and cleanliness; bathing his entire erson daily; never uses tobacco in any stimulant in the stape of a toddy of pure Bourbon "for the stomach's sake."

Dr. Chinu, while a soldier boy only 16 ears old in 1812, became acquainted with ome medical students, and was induced o study for the medical profession at the ose of the war, and when 'just 19 years old," he settled in this city as a practicing physician, but shortly afterwards located near Jacksonville. After moving from Lexington, Ky., to Lexington, Mo., he re-turned to the former place a courting idower, to woo his present estimable wife The pleadings of love were strung; but the lady was averse to residing in Mis souri, and made his settling in Lexington, Ky., a condition precedent to the blissful "yes" which makes the lover's heart exquisitely huppy, und after a sorrowful fare well he departed for the West. The lady' heart was not obdurate, however, and al ction triumphed, as it always does in th gentle breast of woman. When he reached Midway he found a telegram awaiting him, and returning to Lexington he jayfully bore away a fair bride to his Weste

Unele Davy' Sayre, now a prominent and wealthy banker, inmigrated from Mudison, New Jersey, in 1811, when comparatively a boy. He was then a journeyman worker in silver-plating, &c. Lexington was then the important city of the West, containing about 6,000 inhabitants and the manufactory he worked in was patronized not only by all parts of Ken-tucky, but by other States. He walked most of the way from New Jersey to Lex ington, making time that Weston need no ashamed of, and on his arrival at his journey's end, he had just \$1 75 in his pocket. That insignificant sum was the East Tennessee, attached them to and ver the costs of the suit.

This plarmed Clingman very much, and Davy is a strict member of the Presbytef late he has been trying in every possi-le manner to induce the attorneys of at Dr. Brant's church (conservative), he still contends that he has not withdrawn from the Assembly, but adheres nin has resorted to the usual expedient of name and organization as he did to the uch scoundrels—to assassination; but we Union—devoted to the shadow, though the substance had fled with the first roll of the

recruiting drum of the North The oldest of the party was the venerable Judge Robertson-probably, as he shot at by two militianen, members of clingman's command. One of the bulls est living Judge in America. Judge Robertson was a member of Congress other struck him in the thigh, making a many now prominent in public life were terrible but not a mortal flesh wound—born. He was Chief Justice of Kentuck, that is to say not mortal unless more un-favorable symptoms set in than had de-veloped themselves yesterday up to the enduring than the high reputation he has There is no possible doubt, we are incorred, that this deed was done at the of congralatation to the Commonwealth nsitgation, if not under the very orders of that so able and experienced a jurist still Clingman. If such is the case the citizens of Humboldt would not only be justifiable in hanging the scoundrel, but they would be derelict if they did not do so.

## ROMAN NOTES.

The Pope and Ristori.

The following items are taken from the Roman letter (dated March 31) of the London Morning Post:

A piece of jocularity in which His Holiess is said to have includeed during the supper of the figurative apostles, is quite haracteristic of his occusionally Your readers are aware that Ioly Thursday the Pope, in imitation of Master, washes the feet of thirteen poor priests of different nations, and afterwards vaits upon them at table, necompanied by special retinue. His Holiness had oured some wine into the glass of one of hese pro tempore upostles, und was going o add some water, when the recipien idently but expressively covered his glass with his hand. He evidently preferred the pure juice of the grape. "Deve essere Tedesco?" whispered the Pope to the Austrian Cardinal De Reisach, who was by his side. The instruction wounded the sensibilities of His Emineuce, who ques-

ioned the priest, and found that he was not a German, but n Swiss. The eardinal nformed his Holiness triumphantly of this oke. Pio Nono nodded significantly at the communder of his Swiss guards, Count le Sonnenbourg, exclaiming, "Peggio! worse still!)

Madame Adelaide Ristori arrived here resterday, intending to give four representations in Rome, commencing with her chef d'œuere, "The Medea." Rossini's masterpiece, "Guillaume Tell," has been definitely excluded from the list of operas to be given this spring, as the theatrical censor has decided that the work is of too evolutionary a character, while the mutilations required to make it less so would spoil the composition. Haydn's "Creation," as performed by the members of the congregation of St. Cecelia, for a charita-ble purpose, at the great hall of the Cupiol, has proved so successful that a Court representation of that grand oratorio has been ordered, at which the Pope himself will be present. Rossini's posthumous Mass will also be performed in the same hall, for its effect to be judged of before name. it is admitted into the category of music

used by the papal choir. The Appleton divorce case came up in New York Saturday. Samuel F. Ap-pleton sued his wife for divorce on the round that she was the lawful wife of illiam Warner, who was still living. The defendant moved to strike out the complaint, on the ground that complainant was insane, and that the action is carried on by his brother, who, in the event of his death while in a state of lunaey, will obtain, as his next of kin, property amounting to over \$300,000. - Cincinnali Gazetle,

"A GERMAN BARON."

How he Cut a Wide Swath in New York.

From the N. Y. Evening Post, 22d. An old citizen of New York sends us he following story of the olden times:

There are but few persons who can reeollect events which occurred in the city of New York half a century since, when, compared with what it is at present, it was a mere village.

Conrtland to Greenwich street, and thence to the Battery, Broadway from BELLIGERENT RIGHTS TO BE CON. Trinity Church to the same place, Wall, Broad and Pine streets at that time were the residences of our richest and most in fluential citizens; and the cushiers of the banks, which were few and principally sitnated in Wall street, condescended with their families to live in the same. Millionated on the sixth floor, occupied by the nires were scarce, but honest men were ingraving department and drying room of plenty, and the word of a merchant at that he National Bank Note Company. The time was to be relied upon. The mayor time was to be relied upon. The mayor and aldermen were made up from our

Towards the close of a very cold day in April, 1818, during which the boisterous wind from the northward had caused conderable commotion on the surface of the North river, the inhabitants of the city o New York were startled by a report that very rich nobleman from Europe had arrived at Jersey City, crossed in an open Cuban question. Belligerent rights are to boat, there being no steam ferry in those be conceded to the Cuban insurgents, asthe island assured. This, it is argued, will had lost overboard a cuse containing diamonds and other jewels of great value The people were much excited at the event; n majority had never seen a live obleman; every one was inquiring where e was to be found; and no newsboy being in existence or extras issued at that early period, it was extremely difficult to useer However, it was finally discovered

that he had taken lodgings at the City Hotel, kept by Chester Jennings, and his inimitable bar-keeper Willard. That hotel, which stood on Broadway, between Thames and Cedar streets, has long since disapollect its managers. The next morning the sidewalk in front of the hotel was crowded by curious specta

ors in hopes of seeing the great man, great both in title and rickes, but he did not nake his appearance. The general dinner hour at that period was three o'clock, and at the table d'hote, while a large party were engaged in sul dued conversation, a vulgar-looking hump backed fellow exclaimed, in a stentorial Vatair, some pred," causing the oice yes of the entire audience to be directed the place whence the voice proceeded, which seemed to please the performer who after calling for several bottles of ex rink. The enpacity of the hall will allow pensive wine, cutertained the few who 300 persons to dance at once. Nearly remained after dinner with a Dutch song.

The next move of the Baron was to ge up a report that he had entered at the Customhouse his diamonds and jewels, nd paid some lundreds of dollars of luty, thereby not only enhancing hi iches in the eyes of the public, but obtain ng the name of an honest man by not muggling them, which might easily have

een effected. The next morning there appeared in ront of the hotel a splendid drawn by four horses, and attended by two servants in rich livery. This brought together a large number of spectators, nxionsly waiting for the appearance of the party who were going to occupy Presently appeared the "Baron von H an," who entered the vehicle, smiled or the assemblage, and started for an exent sion into the country, which commenced at Canal street, then a morass, used by

be boys in winter as a skating pond. The Baron at this time became extreme ly popular among the elite of the city Dinner parties and balls given in his hono were of daily occurrence, and as on thes casions he appeared covered with sever al European orders, he mightily dazzled the intellects of the young ladies of the first families, and the mayor never gave a dinner or an evening party without his be ng an invited guest. The Baron would ccasionally invite a young lady, accom panied by some female relative, to ride with him, and then make love to her, dozen of which it was reported he had purchased, to whoever accepted his suit, being called My Lady the Baroness. hir interviews turned the heads of many of the rising generation, and it was sup-

Soon after there was a report that the Baron had committed suicide at the hotel by shooting himself with n pocket-pistol. It seems he had retired for the night, and rishing to create a sensation of sympathy among his numerous admirers, lifted the skin on his breast with his thumb and finger, and fired a shot through it, the wound appearing as having been made by two ervants and surgeons, but not a friend or untual acquaintance among them; und, ipon ascertaining that the wound was not

In reply, he said he had for several weeks. but when he found him to be the lion of the city, the intimate friend of the Mayor; aldermen, respectable citizens and rich merchants were continually calling npou him, he felt ashamed to do so; but ncluded by saying that what the Baron had paid covered the first cost of the whole, therefore he had lost nothing. The reader will naturally inquire what came of the diamonds and jewels enter-

ed by the Baron at the customhouse, if any with tows of empty barges, passed up yes vere entered. Among the creditors of the Baron were Generals St. John and Mapes. Both had claims on a casket of jewels, to obtain which a snit was entered, and, after a long rial, attended with heavy expenses, the atter obtained a verdiet in his favor. At death they were inherited by his son, he late Professor Mupes, of agricultural elebrity. These he held with great care, ocked in his safe in his dwelling at Brook-

IRELAND. Large Emigration from the Southern Counties. From the Correspondence N. Y. Herald.

QUEENSTOWN, April 8, 1869.

The tide of emigration from this port which was well begun last mouth, is rapidly increasing, and if it does not exceed the great rush of 1866-7, the year succeeding the futile attempt at insurrection made by the Fenians, will undoubtedly be on a par with those years. The steamers which left yesterday were unable to take on board all those booked, and hundreds vere compelled to await here the arrival of he boats coming up next week. During last night and the night previous so over-whelming was the crowd of people that oured into this place that accommoda on could not be provided for them, and ome remained at the railway depots, and thers, who succeeded in obtaining lodgngs, were obliged to sleep on forms or vhatever were given them by lodginghou

ceepers. It was calculated that over

,000 emigrants reached here on yesterduy, of whom only half were shipped.
The National and Inman companie have announced that they will start extra teamers next week; but even with thi extra accommodation several will be shu out to await the next outgoing boats. Accounts from the counties of Kerry, Tip perary, Limerick and Waterford state the the people leaving those districts are all young and healthy looking men and women of the farming and laboring classes, several of whom have had their passages paid in America, and are on their way on o join their families and relatives who have made a home nuder the stars and stripes. Another feature associated in every instance with the partings of previ ous years is fast dying out. The people are evidently beginning too look upon emigration as a matter of course. Instead of the shrieks of sorrow and regret that ormerly rent the nir as the tenders with ron had taken from her the present she had their living freight left our shores now are boasted of having received from so great a to be heard vociferous cheers between man. Supper fin ished, the ladies were seen to their carriage The Baron continued this mode of life, with a politeness that excelled the courtly and, as it was rather expensive, his funds days of Versailles. The gentlemen re began to run low; consequently he was necessitated to draw upon some of his bankers in Europe. As soon as this became known, he had offers from his unnerous friends to eash his paper, among them a German named Levi or Moses—I forget which—and two tailors residing in W.
